DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 1-4, 14, and 18 are rejected under 35 U.S.C. 102(b) as being anticipated by Richa (2,284,232). Richa discloses an apparatus for finishing garments having an inflatable body portion that is made up of a plurality of cavities. Cavities 98 are both directly inflated from branches 102 and 103 of the T-shaped fitting 99. The main cavity of the body portion is inflated indirectly through the perforations in the T-shaped fitting 99 that separates the main cavity from the other cavities. With respect to Claim 2, the main body portion of the apparatus if air-permeable. With respect to Claims 3 and 4, the T-shaped fitting is an air-permeable material and has a valve through which air can flow. With respect to Claim 14, the perforations in the T-shaped member inherently cause the air to pass through the wall of the T-shaped member more slowly than air passing through the T-shaped member in the direction of the shoulder cavities. With respect to Claim 18, the apparatus treats shirts.

Allowable Subject Matter

3. Claims 5-13 and 15-17 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to James G Smith whose telephone number is 703-605-4225. The examiner can normally be reached on 8:00-5:00, off every other Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, John J Calvert can be reached on 703-305-1025. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
